

STICK IT TO THE MAN AND FIGHT FOR THE LITTLE GUY

ABOUT US

OF COMBINED
EXPERIENCE AS
ENGINEERS

Brilled Lighting is transforming the lighting industry through strong partnerships and over 60 years of engineering excellence. With durable LED solutions, we prioritize customer satisfaction above all else, offering factory-direct products at competitive prices.

Our expert team provides personalized guidance for projects ranging from offices to sports facilities, ensuring tailored solutions aligned with long-term goals. Experience excellence with Brilled Lighting today!

CORE COMPETENCIES

● INDOOR & OUTDOOR LED LIGHTING SUPPLY

We aim to be a leading supplier for both indoor and outdoor lighting solutions. With consistent quality and competitive pricing, we're committed to helping facilities transition to efficient indoor lighting. Additionally, recognizing the often overlooked energy-saving potential of outdoor lighting, we offer a range of options, from pole lights to high-end stadium-style floodlighting, to meet diverse needs and enhance cost savings.

● POWER CONDITIONING

Conditioning your power involves treating each sub-panel in your facility with its power-perfect unit. Far from simple capacitors, these units treat all aspects of A/C power bringing amp, volts, ohms, EMI, and other core aspects of power inline.

● ADVANCED LIGHTING CONTROL SYSTEMS

We can provide both basic and advanced control systems to our clients. These systems not only save extra power in the long run, but they can also significantly reduce the upfront cost of LED upgrades as many utilities will pay higher rebates for LED when paired with an advanced control system

CERTIFICATION

Minority Business Enterprise (MBE)
Certification # MBE24069
